CAREER OBJECTIVE

Motivated Artificial Intelligence & Data Science student with a strong foundation in programming, data structures, and web development. Seeking an internship opportunity to apply problem-solving skills and build scalable, real-world applications in software and AI-driven environments.

INTERNSHIP EXPERIENCE

AI & Machine Learning Intern, *Six O Four Solutions*

06/2026 – 07/2026
Offline - Palani

- Developed AI applications using LangChain, RAG, Vector Databases, and LLMs.
- Gained hands-on experience in AI, Machine Learning, and Data Science concepts.
- Built intelligent AI workflows and enhanced practical problem-solving skills through real-world applications.

Web Development Intern, *WebGen Technology*

06/2025 – 07/2025
Online

- Developed responsive web interfaces using modern frontend technologies
- Assisted in backend integration and basic API handling
- Used Git for version control and collaborative development
- Gained practical experience in real-time project workflows and teamwork

EDUCATION

B.Tech – Artificial Intelligence & Data Science,
SNS College of Engineering, Tamil Nadu

2024 – 2028
Tamil Nadu, India

- CGPA: 8.3

TECHNICAL SKILLS

Programming Languages Java, Python, C	Web Technologies HTML, CSS, JavaScript, React (Vite + TypeScript)
Tools & Platforms Git, GitHub, Firebase, Supabase, VS Code	Core Concepts Data Structures & Algorithms, OOP, DBMS, Operating Systems, Machine Learning Basics, Data Science & EDA

PROJECTS

Real-Time Cybersecurity Anomaly Detection System

- Built a machine learning-based system to detect unusual network activities in real time
- Performed data preprocessing, feature engineering, and anomaly detection modeling
- Improved detection accuracy while reducing false positives
- Applied data science techniques for identifying potential cyber threats

Budget Buddy – Travel Budget Web App, *React + Supabase*

- Developed a responsive web application to manage travel expenses efficiently
- Integrated Supabase for real-time database and backend services
- Designed dynamic UI for smooth user interaction and expense tracking
- Focused on performance optimization and clean UI/UX

Tailoring Service Web Application

- Building a web platform for a tailoring business to manage customer orders
- Planning features like order tracking, customer management, and service listing
- Using Firebase for authentication and database management
- Aiming to deliver a simple and user-friendly interface for real-world usability

AI Document Classification System

Tech Stack: Python, Flask, Google Gemini API, OCR, NLP, HTML, CSS, JavaScript

- Developed an AI-powered web application to classify documents using OCR and Google Gemini.
- Implemented document upload, text extraction, and automated classification for PDF, DOCX, JPG, and PNG files.

MediLu – AI-Powered Patient Healthcare Assistant, Tech: React, FastAPI, Supabase, AI/LLM, RAG

- Developed an AI healthcare assistant that simplifies medical reports and terminology for patients.
- Integrated RAG, AI symptom checking, health tracking, medication/appointment reminders, and recovery planning.
- Designed role-based portals with secure authentication, APIs, database, and notification services.

CERTIFICATIONS

• ServiceNow Virtual Internship	• Artificial Intelligence Fundamentals — IBM SkillsBuild	• Building Trustworthy AI Enterprise Solutions — IBM SkillsBuild
• Enterprise Design Thinking Practitioner — IBM	• Enterprise Design Thinking Co-Creator — IBM	• Machine Learning with Python — IBM SkillsBuild
• Python 101 for Data Science — IBM SkillsBuild 2025	• Diploma in Computer Applications (DCA) — CSC Computer Education	• Python programming - CSC Computer Education
• Python for Placement Readiness — byteXL, SNS Institutions	• Basic Data Structures and Algorithms — byteXL, SNS Institutions	• Digital Marketing & Social Media Strategies — byteXL, SNS Institutions

ACHIEVEMENTS & ACTIVITIES

Problem Solver, LeetCode

- Active problem solver on LeetCode with consistent practice

Project Development

- Continuously building real-world projects to enhance development skills

STRENGTHS

- Strong analytical and problem-solving skills
- Quick learner with adaptability to new technologies
- Passion for building practical, user-focused applications
